

**MASTS/MREDS Marine Renewables Workshops  
20/22 October 2010  
SPEAKER LISTS and ABSTRACTS (in order of presentation)**

## CONTENTS

### Day 1 (Wednesday) Marine Renewables and the Environment

Name	Title	Page
Side, Jonathan Heriot-Watt	MREDS introduction overview	1
Mair, Hamish Heriot-Watt	MASTS introduction overview	1
Baston, Susana Heriot-Watt	Hydrodynamics in the Pentland Firth: understanding the energy source	1
Woolf, David ERI/UHI	Towards determining the exploitable resource of a real tidal channel; the inner sound of the Pentland Firth	1
Shields, Mark Aberdeen	Go with the flow: Understanding the ecological implications of altering the hydrodynamics of the marine environment	2
Porter, Joanne Heriot-Watt	Bryozoan diversity in Scottish Waters in Space and Time	2
Bell, Michael Heriot-Watt	Fishery interactions with marine renewable energy developments	2
Batty, Bob SAMS	Predicting the abilities of marine vertebrates to evade collision with tidal stream turbines.	3
Guerin, Andrew ERI/UHI	Ecological impacts of marine renewables: research at ERI	3
Last, Kim SAMS	Sensitivity of biogenic reef forming organisms and commercially important benthic invertebrates in an era of marine renewable development	4
Want, Andrew Heriot-Watt	Biological sentinels of change in exposure to wave energy on rocky shores	4

<b>Wilding, Tom SAMS</b>	<b>The Loch Linnhe Artificial Reef - an experimental arena to facilitate multidisciplinary research into the consequences of offshore structures</b>	<b>5</b>
<b>Side, Jon Heriot-Watt</b>	<b>End of session summary and filling the gaps</b>	<b>6</b>

### Day 2 (Thursday) Marine Renewables and Marine Spatial Planning

<b>Name</b>	<b>Title</b>	<b>Page</b>
<b>Mair, Hamish Heriot-Watt</b>	<b>MASTS introduction overview</b>	<b>7</b>
<b>Side, Jonathan Heriot-Watt</b>	<b>MREDS introduction overview</b>	<b>7</b>
<b>Johnson, Kate Heriot-Watt</b>	<b>Governance, stakeholders and the European ambition for marine space</b>	<b>7</b>
<b>Hull, Angela Heriot-Watt</b>	<b>Marine Spatial Planning - a mechanism for conflict resolution; Lessons from terrestrial planning</b>	<b>7</b>
<b>Goldschmidt, Pippa Marine Scotland</b>	<b>Marine Scotland's Pentland Firth and Orkney Waters pilot marine spatial plan</b>	<b>8</b>
<b>Kerr, Sandy Heriot-Watt</b>	<b>Planning For Marine Energy: Research Opportunities</b>	<b>8</b>
<b>Benjamin, Jonathan Wessex/Edinburgh</b>	<b>Cultural heritage and the marine environment: research, management and cooperation with industry</b>	<b>9</b>
<b>Downes, Jane Orkney College/UHI</b>	<b>Marine renewables and marine historic environment assessment: an Orkney perspective</b>	<b>10</b>
<b>Bates, Richard Aberdeen</b>	<b>Paleolandscape Reconstructions; the archaeological potential of the marine sector</b>	<b>10</b>
<b>Dawson, Sue</b>	<b>Relative Sea Level Changes in Orkney</b>	<b>10</b>

<b>Dundee</b>		
<b>Wickham-Jones C Aberdeen</b>	<b>Transition Zone Prehistory: studying Early Holocene sea-level change in Orkney</b>	<b>11</b>

**Day 3 (Friday) MASTS Mapping JRT Workshop**

<b>Name</b>	<b>Title</b>	<b>Page</b>
<b>Mair, Hamish Heriot-Watt</b>	<b>MASTS JRT on 'Marine Biodiversity and Ecosystem Function' - introduction and some mapping studies (Scotland and Latin America) plus potential for international collaboration</b>	<b>13</b>
<b>Roberts, Murray Heriot-Watt</b>	<b>Developing a partnership approach to marine habitat mapping: the MINCH project and the discovery of Scotland's only known inshore coral reef</b>	<b>13</b>
<b>Sanderson, Bill Heriot-Watt</b>	<b>Mapping Marine Protected Areas to inform management and conserve biodiversity</b>	<b>14</b>
<b>Bates, Richard Aberdeen</b>	<b>Sensor technology suitable for biodiversity mapping</b>	<b>14</b>
<b>Stewart, Heather BGS</b>	<b>Marine Environmental Mapping – Perspective from the British Geological Survey</b>	<b>15</b>
<b>Crawford- Avis, Oliver JNCC</b>	<b>Marine Protected Areas in the Seas Around Scotland: Conserving Scotland's seas for both people and nature</b>	<b>16</b>
<b>Buhl- Mortensen, Paul IMR Norway</b>	<b>Classification and prediction of deep-water habitats in Norway</b>	<b>17</b>
